She could/would (could/would) dance so well when she was little. She is 15 years old. She has danced for 10 years, but now she can't (can't/ shouldn't) do it. Because she is not allowed to dance, because she has a problem with her legs. The first time she danced. But then her legs started aching, because she has a problem with her legs. Her mother sent her to doctor. And request her to really go. When she asked for advice to her mother she showed him her legs. The doctor prescribed her tablets. The Alesja asked him for permission to dance. Because she really needed to dance. The doctor said to her that that now she can't (can't/wouldn't) dance but in the future she might dance.
