

SOLUTION

$$1) \frac{13}{110} \times 100 = 11,8\%$$

$$2) \frac{10}{123} \times 100 = 8,1\%$$

$$3) 15 + 2,04 = 17,04$$

$$\frac{15}{17,04} \times 100 = 88,0\%$$

$$4) 11 + 2,09 = 13,09$$

$$\frac{11}{13,09} \times 100 = 84,0\%$$
