Penguins and Polar bear

## Characteristic: Polar bear

- Comparatively slim body with long neck
- Narrow head with small eyes and outer ears
- Paddle-like paws with webbed toes
- Short tail (7 to 13 centimetres)
- Five short, non-retractable claws
- Body covered with hair, with the exception of the lips, the nose and part of the soles for the feet
- Underwool up to 5 centimetres, guard hair / top hair at the belly up to 15 centimetres
- Hairs hollow, almost transparent and light-conducting
- 42 teeth
