

$$1 \frac{9}{(9-5) \cdot 5!} = \frac{9}{4! \cdot 5!} = 126$$

$$2 \frac{7!}{(7-2)! \cdot 2} = \frac{7!}{5! \cdot 2!} = 43$$

El numero de canciones que no se tocaron fueron 7

$$3 \frac{100}{5} = 20\%$$

$$20\% \times 3 = 60\%$$

$$4 \frac{95}{7.69\%} = \frac{100}{52} = 1.92\% = \frac{52}{4} = \frac{100\%}{7.69\%}$$

$$95 \text{ de canciones} = \frac{52}{1} = \frac{100\%}{1.92\%}$$

$$95 \text{ o un canción} = \frac{52}{16} = \frac{100\%}{30.72\%}$$

$$30.72\%$$

$$5 \frac{0.2!}{(0.2-60)!} = 0.250 \times 100 = 20.5\%$$

$$(0.2-60)!$$
