

Materials

A material is what something is made of

There are 5 basic materials most things are made with these materials some things

are made of metal some things are made

glass some things are made of wood

Some things are made of cloth And some things

are made of plastic there are some other

materials But they are not used as much

as these 5 materials

Lets talk about metal First metal is very

heavy And it is very hard and strong

It usually feels cool if you touch it

we use metal to make lots of things we

use it for Forks and knives we use it

for keys . we use it for cars we use it

for these thing because it very strong

Scribe

Next let's talk about glass. Glass is very smooth. It feels cool to touch. It is not as heavy as metal. It is hard. But it is not strong. It breaks very easily. Then why do we use it? We use it because it is clear. You can see through glass. That's why we use it for windows. That's also why we use it for glasses.

Now let's talk about wood. Wood is lighter than metal and glass. It is not as strong as metal. But it is much stronger than glass. We use wood to make lots of things.

List

Metal

wires
magnets
cans
Pointcut
Springs

Glass

window
mirrors
screen
Cup
Top

Wood

toys
Paper
Table
axe
shelf

cloth

Hangbogs
Sacks
cap
cartridge
cortana

Past Simple

Anna holiday was great last summer she stayed in a college in England for two weeks. She had classes in the mornings and in afternoon she did some sports like swimming or tennis. In the evenings she often went dancing or watched films with her new friends. At weekends they drove to some interesting places. Once they animals Marwell Zoo where they some beautiful animal Anna didn't like the food at the college but that was not a problem. She met a lot of people and learnt some English. All the student in her class were sorry to go home they all promised to come back next summer.
