A material is what something is made of. There are 5 basic materials most things are made these. Materials. Some things are made of metal. Some things are made of glass. Some things are made of wood. Some things are made of cloth. But they are not used as much as these 5 materials.

Let's talk about metal first. Metal is very heavy. And it is very hard and strong. It usually feels cool if you touch it. We use metal to make lots of things. We use it for forks and knives. We use it for keys. We use it for cars. We use it for these things because it is very strong.

Next let's talk about glass. Glass is very smooth. It feels cool to touch. It is not as heavy as

metal. It is hard. But it is not strong. It breaks very easily. Then why do we use it. We use it because it is clear. You can see through glass. That's why we use it for windows. That's also why we use it for glasses.

Now let's talk about wood. Wood is lighter than metal and glass. It is not as strong as metal. But it is much stronger than glass. We use wood to make lots of things. Things made from wood are usually light and hard and strong. Chairs and tables are made from wood. Doors are made from wood.

Now let's talk about cloth. Cloth is very light. It is much lighter than wood. And it is very soft. We use cloth to make lots of things. For example, it is used to make clothing. And it is used to make blankets.

Labs lets talk about plastic. plastic is also very light. But it is different from cloth. Sometimes it is soft. And sometimes it is hard. Plastic can be used to make thin plastic bags. They are light, soft and strong.

Anna's holiday was great last summer. She stayed in a college in England for two weeks, she had classes in the mornings and in the afternoons she did some sports like swimming or tennis.

In the evenings she often went dancing or watched film with her new friends

At weekends they drove to some interesting places. Once they visited Maxwell Zoo where they saw some beautiful animals. Anna did not like the food at the college but that did not be a problem. She met a lot of people and learned some English. All the students in her class were sorry to go home, they all promised to come back next summer.
