Introduction

This report investigates popular free-time activities among 12- to 13-year-olds in the U.S. Many teenagers around this age enjoy different outdoor or physical activities, but some of them spend a lot of time indoors doing sedentary activities. Here we make suggestions for using free time based on a questionnaire applied to forty-one secondary students.

According to the questionnaire, the most popular free-time activity among teenagers at this age is hanging out with friends. Nearly 90% of teens do this every day. However, team sports (soccer, baseball, etc.) are also popular daily activities (80%). Only 50% of teens spend more than an hour a day outdoors. At the same time, 75% of them watch television for more than two hours a day.

Recommendations

1. Teenagers should have a balance of indoor and outdoor activities.
2. Teenagers should be more active.

Conclusion

Many adolescents like physical activities, but don't do them very often. In summary, young people should spend less time watching television and find ways to be more active in their free time.
