Writing Task: A Report

1 Read the report and answer the questions exchanging information with your partner.

- a Which section of the report makes suggestions?
- b Which section of the report states objectives?

Introduction

This report investigates popular free-time activities among 12- to 13-year-olds in the U.S. Many teenagers around this age enjoy different outdoor or physical activities, but some of them spend a lot of time indoors doing sedentary activities. Here we make suggestions for using free time based on a questionnaire applied to forty-one secondary students.

According to the questionnaire, the most popular free-time activity among teenagers at this age is hanging out with friends. Nearly 90% of teens do this every day. However, team sports (soccer, baseball, etc.) are also popular daily activities (80%). Only 50% of teens spend more than an hour a day outdoors. At the same time, 75% of them watch television for more than two hours a day.

Findings

Recommendations

1. Teenagers should have a balance of indoor and outdoor activities.
2. Teenagers should be more active.

Conclusion

Many adolescents like physical activities, but don't do them very often. In summary, young people should spend less time watching television and find ways to be more active in their free time.

- 2 Write in your notebook two connecting words in the report that indicate contrast.
- 3 Write a report about the free-time activities you do at home. Decide on an objective and think of three questions to ask.
- 4 Use the following four headings for the different sections of your report.

Introduction – Findings – Recommendations – Conclusion

- 5 In pairs, exchange and correct your reports. Write a final version in your notebook.

Activity Page 223 Point 1

Recommendations

1 Teenagers should have a balance of indoor and outdoor activities

2 Teenagers should be more active

Objectives

Young people should spend less time watching television and find ways to be more active in their free time

Point 2

* Introduction

* Recommendations

Point 3

Most of my free time I spend sweeping the terrace or watching movies with my

Family, for now my goal is to do more fun things like playing soccer instead of watching TV.

Point 4

Introduction

Most of my free time I spend sweeping the terrace or watching movies with my parents.

Findings

According to the graph, the most free time is spent sweeping the terrace, which makes you lose time to do a more interactive activity.

Recommendations

1. Don't sweep every day if you don't sweep every other day
2. You are more active in my free time

Conclusion

The time invested in sweeping is too much if you have to stabilize an order to do the proposed activity and sweep because if you continue with the same order nothing will change.
