It feels cool to touch. It is not as heavy as metal. It is hard. But is not strong. It breaks very easily. Then why do we use it we use it because it is clear you can see through glass that's why we use it for windows. That's also why we use it for glasses.

Now let's talk about wood. Wood is lighter than metal and glass. It is not as strong as metal. But it is much stronger than glass. We use wood to make lots of things. Things made from wood are usually light and hard and strong. Chairs and tables are made from wood. Pencils are made from wood. Pencils are made from wood.

Now let's talk about cloth. Cloth is very light. It is much lighter than wood. And it is very soft. We use cloth to make lots of things. For example, it is used to make clothing. And it is used to make blankets.

Last let's about plastic. Plastic is also very light. But it is different from cloth. Sometime
