A material is what something is made of. There are 3 basic materials
not things we make with these materials some things
are made of wood, paper, cloth, metal & plastic
there are other materials. But they aren't used as
much as these 3

Let's talk about metal first. Metal is very heavy and it's very hard
and strong. It usually feels cool if you touch it.

We use metal to make machines.

Steel is a kind of metal. Steel is very smooth. It feels cool
to touch. It is not as heavy as metal. But steel is very
strong.

Now let's talk about wood. Wood is lighter than metal and glass.
We use wood for many things.
