Reading Comprehension (Material 3)

A material is what something is made of. There are 5 basic materials. Most things are made of metal, some things are made of cloth, some things are made of wood, some things are made of glass and some things are made of plastic. There are some other materials, but they are not used as much as these 5 materials.

Let's talk about metal first. Metal is very heavy, and it is very hard and strong. It usually feels cool if you touch it. We use metal to make lots of things. We use it for forks and knives, we use it for keys, we use it for cars. We use it for these things because it is very strong.

Next let's talk about glass. Glass is very smooth. It feels cool to touch. It is not heavy as metal. It is hard, but it's not strong. It breaks very easily. Then why do we use it? We use it because it is clear. You can see through glass. That's why we use it for windows. That's also why we use it for glasses.

Hola Hola Hola
is a verb tense which is used to show
that completed action took place at a
specific time in the past the simple
past is also frequently use to talk about
past habits and generalization

Example:

I studied at the university the last year
I went to Germany the last vacation
I visited to my Parents yesterday

Past simple tense:

We use the tense to talk about

- 1) something that happened once in the past
- 2) something that happen again and again
in the past
- 3) something that was true for some
time in the past.

Example

I live abroad for ten years

He enjoyed being a student

Man in trouble. He yanked me back to Chicago
Yeah...

...and he was sick. And he...
he had these... these dream of me becoming
a doctor you know?
you know... And eventually they become his
dream, too

he was right
you know, I feel good helping people
then he died

Man

I love San Francisco.

He must have been a great guy

Really?

Tren, that's too bad!

You were in trouble.

Now, let's talk about wood. Wood is lighter than metal and glass. It is not as strong as metal but it is much stronger than glass. We use wood to make lots of things. Things made from wood are usually light, hard and strong. Chairs and tables.

Now let's talk about cloth. Cloth is very light. It is much lighter than wood and it is very soft. We use cloth to make lots of things.

Last, let's talk about plastic. Plastic is also very light. But it is different from cloth. Sometimes it is soft, and sometimes it is hard. Plastic can be used to make thin plastic bags. These are light, soft, and strong.
