

live in London

She had not visited a horse before that day

Actividad

After Fred had spent his holiday in Italy he wanted to learn Italian

Jill had phoned Dad at work before she left for her trip

Susan turned on the radio after she had washed the dishes

When she arrived the match had already started

After the man had come home he fed the cat

Before he sang a song he had played the guitar

She watched a video after the children had gone  
to bed

After Eric had made breakfast he phoned  
his friend

I was very tired because I had studied too  
much

They had ridden their bikes before they  
met their friends
