

Activity

1 How many forest video? you watched in the

forest boreal

forest the secoyas (redwood)

Miamba and madagascar

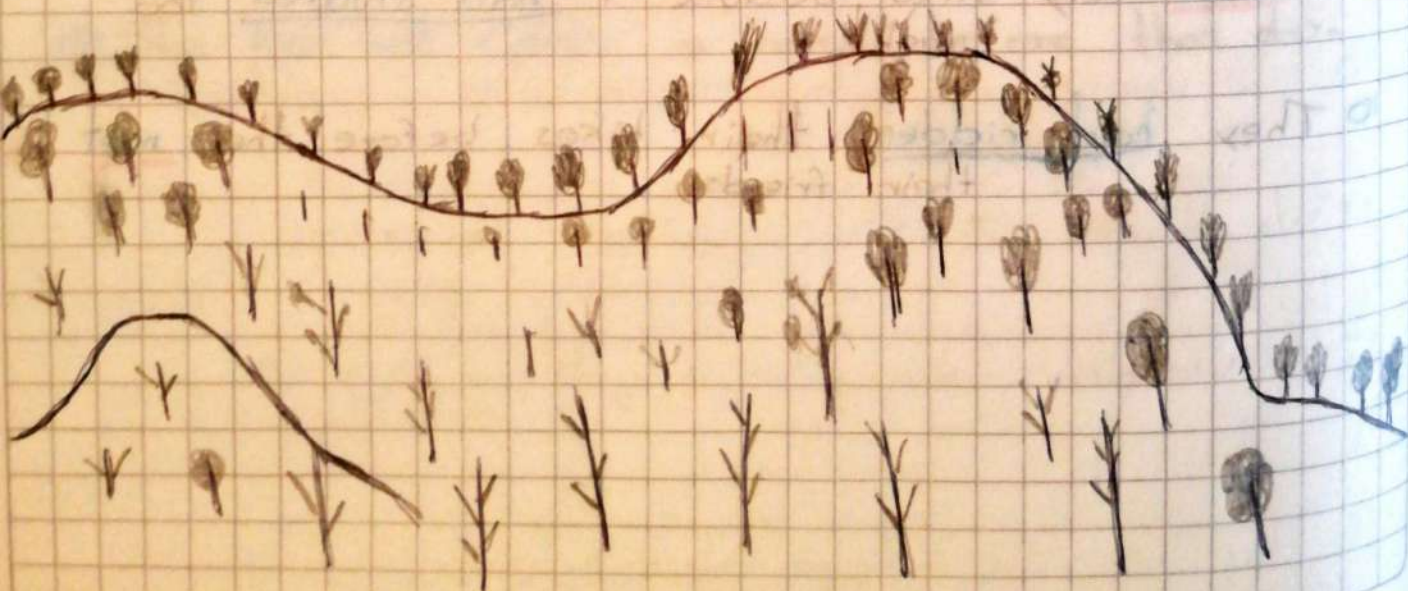

2 How many animales you watched in the video?

Bald eagle, salamander rugged skim

Bucerotidos, hopone, dogs, Lemur

Rats

3 Choose one forest and draw in your notebook.

The taiga, or boreal forest, is the biocenosis of the boreal forest climate. It is a coniferous forest that supports cold weather conditions and low rainfall.
