our father

our father, who art in heaven,  
hallowed be thy name.

thy Kingdom come.

thy will be done,

on earth as it is in heaven.

Give us this day our daily bread.

And forgive those who trespass, (~~against~~ us)

as we forgive those who trespass against us.

And lead us not into temptation,

but deliver us from evil. Amen

Hail Mary

DÍA

Hail Mary,

full of grace,

the lord is with thee.

Blessed art thou among women,

and blessed art thou among women,

and blessed is the fruit

of thy womb, Jesus.

hail Mary,

mother of god

pray for us sinners now

and art the hour of our death.

Amen.

## the robot

A robot is a machine, but it is not just any machine. It is a special kind of machine. It is a machine that works. It follows instructions. The instructions come from a computer. Because it is a machine, it does not make mistakes. And it does not get tired. And it never complains. Unless you tell it to.

Robots are all around us. Some robots are used to make things. For example, robots can help explore volcanoes - some robots are used to explore dangerous places. For example, robots can help explore volcanoes - some robots are used to clean things. These robots can help volcanoes you have. Some robots can even recognize words. They can be used to help answer telephone calls. Some robots can talk like humans. But most robots do not.
